

Anna Fisher Lopez

Stanford Physics, CS & AI

afishpez@stanford.edu | linkedin.com/in/anna-fisher-lopez | annafisherlopez.com

PROFESSIONAL EXPERIENCE

Data Science and Strategy Intern (Incoming)

Jun 2026 – Aug 2026

Blue Forest

San Francisco, CA

Deliverables include:

- Technical analysis on the impact of wildfires on water resources in the Sierra Nevada Region
- Scalable and interactive database visualizing findings from technical analysis

Teaching Assistant for CS 109: Probability for Computer Scientists

Sep 2025 – Present

Stanford University, Dept. of Computer Science

Stanford, CA

- Selected as one of 11 TAs from a highly competitive applicant pool
- Teach 2-4 interactive sections per week covering applied statistics and probability

AI/ML Research Assistant

Feb 2025 – Dec 2025

Stanford University, Dept. of Computer Science & School of Sustainability

Stanford, CA

- Indep. project guided by Andreas Paepcke: Analyzed bat communication patterns using graph-based neural networks, demonstrating clear patterns in chirp sequences using multiple architectures
- Sheshadri Lab: Calculated momentum fluxes and developed a UNet model using ERA5 data to build better climate models

Energy Equity Strategy Assistant

Oct 2024 – Jun 2025

Acterra

Palo Alto, CA

- Developed a report for Acterra's internal strategy team to help improve renter electrification resources
- Collaborated with Acterra's strategy team to identify barriers to electrification among low-income tenants

Strategy and Software Intern

Jun 2024 – Aug 2024

Gemini Energy Solutions

Washington, D.C.

- Conducted a nationwide market priority study to identify priority areas for Gemini's new projects
- Coordinated with clean energy contractors in different states to align project execution with energy-efficiency and budget goals
- Improved usability and reliability of Gemini's energy audit assistance platform through backend software updates

EDUCATION

B.S. Physics, M.S. Computer Science (AI Track)

Sep 2021 – Jun 2026

Stanford University

- Outdoor Trip Leader for Stanford Adventure Programs
- Additional Research: Physical oceanography @ University of Washington (2023), Astrophysics @ Stanford (2022),

SKILLS & INTERESTS

Skills — Python, C/C++, Graph Neural Networks, Machine Learning (PyTorch, TensorFlow), Climate Modeling, GIS (QGIS, ArcGIS), Spanish (spoken & written working proficiency), Randomized Algorithms

Domain Interests — Sustainability & AI, Grid Optimization, Climate Change Mitigation Tech & Strategy
